Columbus, O., Nov. 8.—[Special Telegram to The Gazette]—Chairman Dick this morning issued the following statement: "Returns received indicate the election of Nash by an increase over the plurality of Bushnell, which was

PRESIDENT MCKINLEY

55,000. The election of the entire state ticket and both branches of the legislature is assured.

Cincinnati, Nov. 8.—The republicans have carried Ohio by a plurality very close to that given Gov. Bushnell in 1897 of 50,000. The vote given "Golden Rule" Jones seems to have come mainly from the Democrats, especially where the labor votes were heavy.

In the purely rural districts the Republicans lost heavily in Cincinnati, where the opposition to George B. Cox lost votes for Judge Nash.

In Dayton, where heavy Democratic gains were expected, the Republicans gained from eight to twenty to a precinct.

The Republican chairman in Lucas county, (Toledo) the home of "Golden Rule" Jones and the center of his movement wires that Judge Nash has carried the county and that the entire Republican ticket has been elected.

Gill, republican, for congress in the sixteenth district to succeed Lorenzo Danford, deceased, is undoubtedly elected by a plurality exceeding 8,000.

McLean carried Cincinnati and pulled through the fusion county ticket by a majority of over 1,200.

Nash's Plurality About 50,000

Columbus, O., Nov. 8.—This morning the republican state committee claims that their plurality will "exceed" 50,000 with over 100,000 for Jones out of a total of less than 900,000. The republican majority in the legislature is larger than usual, but no senator is to be elected.

Judge Nash was serenaded after midnight at the Neil house. To an enthusiastic crowd he made a brief speech. He said that the Ohio result was a message to President McKinley that his home state endorsed his administration and presaged McKinley's renomination and re-election in 1900.

Omaha, Neb., Nov. 8.—[Special Telegram to The Gazette]—Full returns will not be in before night, but everything shows gains for the fusionists. While the results have not been a landslide the fusionists have carried the state by sixteen to eighteen thousand. The sixth district elected Judge William Neville to congress to fill the unexpired term of the late William Greene by three thousand majority over Moses Kinkaid, republican.

Lincoln, Neb., Nov. 8.—Returns this morning continue to show the same Fusion gain as earlier reports and there is no longer the least doubt of the Fusion ticket's election.

The returns continue to show steady Fusion gains and the majority for Holcomb will not be less than 15,000.

W. J. Bryan gave out this statement this morning:

"The campaign in Nebraska was fought on national issues, and the result is a protest against the policy of the administration." Mr. Bryan said he had no comment to make on results in other states.

Chairman Tefft of the republican committee admits that the figures at hand show the election of the Fusion ticket.

Chairman Edmiton of the Populist State Central committee said: "We have carried the state by 15,000 and have made gains in county offices."

In Lincoln there was keen interest and hard work. W. J. Bryan cast his vote in precinct A of the fifth ward shortly before noon. He had not registered, and the usual questions under the new law as to his political affiliations was put to him, and he replied that he was a democrat. His vote was sworn in.

Prohibitionists as a rule voted for Judge Holcomb. Sound money democrats, on the other hand, lined up with the republicans. At Nebraska City one of the features was J. Sterling Morton working hard for the republican ticket. The total vote is about 210,000, and it is reasonably safe to put the fusion plurality at 15,000.

Omaha, Neb., Nov. 8.—Forty-six precincts in Omaha give Reese, republican,

cans were able to poll their vote and the total will probably be about 375,000, somewhat below that of last year.

The democrats have apparently done but little to bring out their vote. Their hope of making gains on the issue of imperialism, anti expansion, and opposition to the McKinley administration on the Philippine question have come to naught.

The legislature will be carried through by this large republican majority, and the prospect now is that the republicans will have more members on joint ballot than they have had for several sessions. There will be at least 115 republican votes out of 150, insuring the election of a republican United States senator to succeed John H. Gear.

NEW YORK IS REPUBLICAN

But Tammany Sweeps the City—Mazet is Defeated.

New York, Nov. 8.—Returns from New York state and city indicate that the republicans still retain control of the state assembly. Up state the republicans have made gains that more than offset the winning of Tammany in the city. The apathy of the up state democrats is alleged to have been due to ex-Senator David B. Hill on account of his antipathy to Croker, and Croker's charges. In New York city Tammany has carried all county and local tickets by 50,000 majority. Tammany has also captured nearly all the assemblymen from the city.

Croker is in great glee, for he has defeated the republican candidate for the assembly from the 19th district, Robert Mazet, chairman of the famous Mazet committee, the bugbear of Tammany for months. Mazet now concedes his defeat, and it is thought his opponent will be elected by from 200 to 500 majority.

Mazet was the issue in the city fight. More money was spent in his district than anywhere else, and Croker concentrated his army on defeating his persecutor. Republicans charge that the district was heavily colonized with floating democrats from other parts of the city, and on the face of the returns the charge seems to be substantiated. Money was spent there like water, and it is said \$75 to a block was the appropriation the Tammany boss made to encompass the republican defeat.

In spite of Croker's joy in this victory he is disappointed in not being able to capture the assembly, for he hoped there to have a club which would prevent the interference of Senator Platt and the republican party in city affairs, especially amendments to the charter which may force a new election next year for mayor.

The election in Brooklyn resulted in a victory much larger than any of the democratic leaders had dared hope for. The entire county ticket, with the exception of John Morrissey Gray, was successful by pluralities ranging from 8,000 to 10,000. None of the leaders had privately hoped for over 5,000 and the result was a pleasant surprise for them.

Republicans Sweep Buffalo.

Buffalo, N. Y., Nov. 8.—The republicans made a clean sweep, electing city treasurer and other city officers by majorities ranging from 2,000 to 9,000. The republicans also elect their entire councilmanic ticket, giving them seven members and the democrats two. They also elect thirteen out of the twenty five aldermen.

Phelan Wins in San Francisco

San Francisco, Cal., Nov. 8.—Republican city committee concedes the election of James D. Phelan, democratic mayor, by 2,000 majority.

4,316; Holcombe, fusionist, 4,538. At this rate Holcombe will have over 300 majority in the city.

SHAW IS RE-ELECTED IN IOWA

Republicans Carry the State by About 600,000 Majority.

Des Moines Nov. 8.—Republican expectations are far exceeded by the returns received from every part of the state which show the re-election of Governor Leslie M. Shaw by a plurality that will reach and may exceed 60,000.

George A. Hoffman, chairman of the Democratic state committee concedes the election of Shaw by 40,000 plurality over Fred E. White, the fusion nominee.

The Democratic losses have been much heavier than the Republican gains. It was only with the most effective and energetic organizing that the Republi-

canes were able to poll their vote and the total will probably be about 375,000, somewhat below that of last year.

KENTUCKY IN DOUBT

Both Sides Claim that State by a Majority of About 5,000.

CHANCES FAVOR G. O. P.

Senator Blackburn Wires Bryan that Goebel Has Been Elected.

NEITHER PARTY DARES TO CLAIM CERTAIN PLURALITY

Everything Connected With the Kentucky Election is in a Chaotic State—Telegram received from Goebel Says That Developments This Morning Insures His Election by from 5,000 to 7,000 Majority—Militia Companies Were Not Needed and a Very Orderly Election Was Had.

Louisville, Ky., Nov. 8. 3 p. m.—[Special Telegram to The Gazette]—The republican state central committee has received particularly conclusive evidence that the republicans have carried the state by from 6,000 to 8,000. Democratic gains in the incoming returns are melting away.

Frankfort, Ky., Nov. 8.—[Special Telegram to The Gazette]—Senator Joe Blackburn this morning sent the following telegram to Bryan:

"We have carried Kentucky by a small but safe majority. Sincere congratulations on your splendid victory in Nebraska."

Everything connected with the election is in a chaotic state. The republican campaign chairman, Long, claims the

state for Taylor. The Goebel men say that their leader is safe. Neither party cares to claim any certain plurality. A telegram received this morning from Goebel says that this morning's developments insures his election by from 5,000 to 7,000 plurality.

FAVORS CLAIM OF REPUBLICANS

Republicans Made Heavy Gains in Democratic Strongholds.

Louisville, Ky., Nov. 8.—The result of the election in Kentucky is in doubt this afternoon. Both parties claim the state. The returns that have been received seem to favor the claim of the Republicans.

The weather throughout the state was perfect and more than an average vote was polled, the total falling but little short of the vote polled in the last presidential election. Comparatively little disorder prevailed and aside from several arrests for alleged violations of election laws, the election was characterized by a remarkable degree of quiet.

Gov. Bradley remained in Louisville during the day and had the Louisville legion in readiness for marching orders. The militia was called out after the close of the polls to enforce an injunction granted by a local judge, but the presence of a militia was not needed and the companies were soon ordered back to the armory.

The republicans have made heavy gains in most all of the democratic strongholds which were expected to give Goebel large majorities. Chairman Long claims the republicans have carried the city of Louisville by from 4,000 to 5,000 majority. He also claims that the legislature is safely republican.

PENNSYLVANIA BY 140,000

Republicans Strongly Endorse the McKinley War Policy.

Philadelphia, Pa., Nov. 8.—Republican State Chairman Beeder said this morning: "Colonel Barnett's majority for state treasurer in the state will be 140,000. The majority in Allegheny will be about 20,000 and in the state exclusive of Philadelphia and Allegheny about 50,000. The other candidates will run

somewhat ahead of Barnett, as the opposition within our own party has been concentrated on Colonel Barnett."

In an interview Senator Penrose said: "It seems to be a staunch republican victory all along the line and a strong endorsement of the national administration."

FUSIONISTS LOSE IN KANSAS

Fairly Complete Returns Indicate 10 Per Cent. Republican Gains

Topeka, Kas., Nov. 8.—Fairly complete returns from all over the state indicate republican gains in the county elections held over Kansas. It is predicted by conservative politicians that the republican gain will reach 10 per cent.

A light vote was polled all over the state. In 1896 the fusionists carried sixty out of 105 counties; last year the republicans carried eighty-one counties out of the 105. The estimate for the present election is 91 counties out of 105.

ELECTIONS IN RHODE ISLANDS

Democrats Win in Many of the Municipal Campaigns.

Providence, R. I., Nov. 8.—Municipal elections were held in the five cities of the state. Baker, Dem., was re-elected in Providence by 2,165 plurality over Kimball, Rep., and democratic mayors were also chosen in Pawtucket, Newport and Woonsocket, while the republicans carried Central Falls.

Providence Goes Democratic.

Providence, R. I., Nov. 8.—Mayor Baker, Dem., was elected for the third successive time by a plurality of about 2,100. Last year his plurality was 3,400. All but one of the democratic candidates on the general ticket were elected.

MARTIN WINS IN VIRGINIA

Present Senator Wins His Fight For the Legislature

Richmond, Va., Nov. 8.—The vote in Virginia was the smallest, perhaps, ever polled in a state election. The regular democrats have a large majority in the legislature. The joint session will show about 125 democrats, and 15 independents and republicans.

Thomas S. Martin will unquestionably succeed himself in the United States senate. Gov. J. Hoge Tyler, his chief opponent, is completely snowed out.

NEW JERSEY IS REPUBLICAN

Democrats Defeated by 20,000 and Lose the Legislature

Trenton, N. J., Nov. 8.—The returns this morning indicate that the republicans have carried the state by about 20,000 plurality, although there was no direct vote on a state ticket. The republicans will control both houses of the legislature by good working majorities, and will have an increased representation in the house of assembly.

ELECT MAYBURY IN DETROIT

He Carries the City for Second Mayoralty Term.

Detroit, Mich., Nov. 8.—Mayor Maybury has carried the entire city ticket with him, with the exception of John A. Schmidt, republican city clerk, who is reelected by a comfortable majority. The mayor, however, has not succeeded in regaining control of the council, as the republicans have a good working majority in that body.

Port Huron, Mich., Nov. 8.—The republicans elect their entire city ticket and seven aldermen. The democrats elect three aldermen.

MISSISSIPPI DEMOCRATS WIN

Longino Is Elected By a Majority of Over 40,000

Jackson, Miss., Nov. 8.—The election here passed off quietly, only half a vote being polled by the city precincts. Telegrams from other towns indicate a light vote all over the state and the populist ticket headed by Dr. Previtt, has polled a smaller vote than the same party polled four years ago, when it received 17,000. It is estimated here that not more than 50,000 votes have been polled altogether and that Longino is elected governor by a majority of 40,000.

NEW ORLEANS WON REGULARS

Democratic Nominee for Mayor Over the Jacksonian Candidate

New Orleans, Nov. 8.—In New Orleans fully 90 per cent of the registered vote was cast. "Paul Capdeville, regular democrat, is elected mayor over Walter O. Flower, the present incumbent, by at least 6,000 votes. The state and United States senatorship fights were involved in the contest, and the democracy also made the issue of municipal ownership prominent.

President Cast His Vote.

Canton, Ohio, Nov. 8.—President McKinley cast his ballot just as the noon hour struck yesterday. Respecting the president's desire for simplicity in exercising the right of franchise Cantonians organized no demonstration, but he was cordially welcomed by many old friends.

Col. Born Not a Candidate

Sheboygan, Wis., Nov. 8.—Col. Born said today that he knew nothing of the report that he is a candidate for congressman in the Fifth district. He said the report was without his sanction or authority.

Weight of La Crosse Mail

La Crosse, Wis., Nov. 8.—Weighing of mail at the La Crosse postoffice was completed last night. During the thirty-five days the office sent out 19,781 pounds.

FINE LECTURE BY
REV. DR. A. H. LEWIS

MILTON PEOPLE PLEASSED
WITH PREACHER'S TALK.

Mrs. M. G. Townsend, a Leading Ohio
Temperance Worker, Spoke at the
Seventh-day Baptist Church—Milton
College Societies—News and
Notes.

THE GAZETTE AGENCY
W. W. CLARKE, Manager.
Milton, Wis., Nov. 7, 1899.

Rev. A. H. Lewis, D. D. of Plainfield,
N. S., spoke at the Seventh-day Baptist
church Sunday evening. His theme
was: "The Ideal Minister of 1925" and
a large congregation listened to its pre-
sentation. The production was logical
and thoughtful, the pat illustrations,
graphic descriptive scenes and beautiful
word imagery holding the close atten-
tion of every hearer. Dr. Lewis has
that rare quality of magnetism of voice
and manner that captivates the ear
while his logic and lucid arguments
clinch the truth in the mind of the hear-
er. Had he made the lecture field his
calling instead of the pulpit he would
rank high among the platform speakers
of the day. May it be the good fortune
of Milton people to have the pleasure of
hearing him again in the near future.

Mrs. M. G. Townsend of Holgate,
Ohio, spoke at the Seventh-day Baptist
church Saturday morning and will be
tendered a reception at the home of Rev.
Dr. Platts today. Mrs. Townsend is the
state treasurer of the W. C. T. U. of
Ohio and prominent in temperance work.
She has recently identified herself with
the Seventh-day Baptists and is a mem-
ber of the Chicago church.

The Philomathean and Idwina societies
of Milton college held a joint session
Saturday evening. The program in-
cluded prayer by Dr. Platts, oration by
Miss Alice Holmes, prophecy by Miss
Lena Whitford, paper by P. B. Hurley,
music by the lady quartette, Miss Lil-
lian Babcock and O. H. Green and a
mock court. The defendant, E. E. Bond
was charged with the larceny of a
watermelon by the defendant, J. G.
Maxon. L. A. Platts Jr., was on the
bench. Ray W. Clark appeared for the
state and H. W. Saunders for the de-
fense. The witnesses were A. L. Van-
Horn and Misses Laura Whitney and
Rachel Van Horn.

Ira J. Ordway of Chicago was the
guest of Milton friends Saturday and
Sunday.

Anderson, the baker, lost a horse
Thursday. The equine ran away and
broke a leg, obliging the owner to kill
him.

Jno. Roloff is in town this week and
is still obliged to carry his arm in a
sling.

Miss L. D. Catlin is visiting friends in
Lake Geneva.

Erlo Loofboro, who has been a victim
of typhoid fever, was in town for the
first time Monday since his illness. He
has gone to his home at Welton, Iowa,
not being able to resume his work in the
college.

J. P. Bullis has built a substantial
plank walk in front of his new block.
The King's Daughters have forwarded
the International Y. M. C. A. at New
York a large quantity of magazines and
papers for shipment to the soldiers home
in the Philippines and Cuba.

Miss Agnes Rice and Charles Kemp
of Rock Prairie were visitors at Miles
Rice's Sunday.

T. L. Place transacted business in Chi-
cago Monday.

Miss Florence Leomis of Windsor,
was the guest of Miss Lucy Walker this
week.

Miss Coyle Flint of Woodstock, Ill.,
is visiting her sister, Mrs. F. G. Borden.
Mrs. Place visited Edgerton friends
Monday.

Rock River Notes.

Rock River, Nov. 7.—Born, Sunday,
November 5, to Mr. and Mrs. Fred Al-
bright, a 10-pound girl. Congratulations.
Mrs. N. M. Rose and daughter,
Mrs. Kittie Vincent, spent last week in
Whitewater. Julius Raw is painting his
house. A. C. E. social is being talked
of to be held in the near future. Joseph
Vincent and family are nicely settled
in their new home. Mr. Bailing will
move on his new farm this week. The
Rock River school closed Friday for a
two weeks' vacation. Mrs. Cole will
teach the coming winter term. Herbert
Orandall will go to Wood county this
week, to look for land. S. J. Corliss
and family are moving to their new
home at Milton. Hattie Ashley, who
has been staying with Kittie Vincent for
the past three months, is now at home.
Erlo Loofboro has recovered from his
recent sickness sufficiently to start for
his home at Welton, Iowa, today. Rev.
L. C. Randolph preached an excellent
sermon at the church here. Sabbath af-
ternoon to a large congregation. Many
visitors were present from Milton, Mil-
ton Junction, Albion and Lima. Rev.
Simeon Babcock of Albion, was a caller
on the River road Sunday. George
Richel visited his parents at Whitewater
Tuesday. Mrs. Cora Miles and daugh-
ters Blanche and Bernice, of Milton, vi-
sited Mrs. E. D. Vincent Monday.

Footville, Nov. 7.

Jesse Hart and
family have returned from Janesville
and now occupy the Methodist parson-
age. Mr. Hart will take up the work of
a traveling salesman. The cake social
at the home of Dr. Lucy last Friday
night was an enjoyable affair. A large
number was present. Rev. H. C. Logan
taught the public school last Thursday
and Friday in the absence of Mr. Nich-
olas. The first number of the entertain-
ment and lecture course, directed by
the ladies of the M. E. church, will be given
Nov. 17. It will be a musical number
rendered by the Beloit Ladies' Quar-
tette, assisted by a talented pianist. The
second number will be a lecture by Rev.

A. C. Kempton of Janesville, whose
ability as an entertainer and speaker is
unquestioned. The date of this lecture
will probably be Dec. 8.

Willowdale News

Willowdale, Nov. 7.—Although there
is a deficiency of funds in the treasury
of the Y. P. C. it is hoped that there
will be money enough left after the cy-
ster supper to be given at the home of
the treasurer, Miss Mamie Mooney,
Monday night, Nov. 13, to pay for the
rooster they have so long been indebted
for. Harlon Fitch was seen on our
streets Monday. A new barn is being
erected on the Lynch farm tenanted by
Wm. McDermott. Miss Sarah Lyons
closed school in the Hayner district last
Friday for a short vacation. E. Brink-
mann fractured a bone in his right hand
Tuesday while breaking a broncho. Our
first snow storm of the year fell here
Wednesday. James Carroll is rapidly
improving. Joe Fisher Sundayed at
Brooklyn. Although the day was
stormy a number of our farmers attend-
ed the sale at L. C. O'Brien's Janesville
farm Wednesday. Everything went at
a high figure. E. W. Fisher is having
a furnace put in his house. A number
of our young people attended the Scotch
dance Tuesday night. The Halloween
workers did considerable mischief
throughout our vicinity. A new flag
was seen waving on our flag-pole Wed-
nesday morning. The excitement of
breaking bronchos has nearly abated,
but what an emigration there would be
to the west if we all had spotted horses.
Sunday night dances are the latest.

Leyden News

Leyden, Nov. 7.—The Burr school
closed Friday for a short vacation. Corn
husking is the order of the day. Miss
Annie Quinn of Janesville, visited
relatives and friends here last
week. Harley Waterman of Brooklyn,
visited Leyden friends over Sunday.
A company of young people from La
Prairie were entertained at C. Morison's
recently. Mr. Newman is moving two
miles west of the village known as the
Hayes farm. Harley Fish of Janesville,
visited relatives Sunday. Fred Boss
transacted business in Janesville Satur-
day.

SPORTING NEWS

Madison, Wis., Nov. 8.—Reports that
Captain Pat O'Dea of the Wisconsin's
football team is out of the game for the
rest of the season are getting exaggerat-
ed. It is true that O'Dea suffered a
slight attack of blood poisoning as a
result of the injury to his hip in the
Yale game, and has not been in practice
for several days. He has about re-
covered, however, and says he will put
on his football suit and get to work
again tomorrow and will be in the game
against Illinois at Milwaukee Saturday.

Madison, Wis., Nov. 8.—Eddie Coch-
ens' has decided to play for the rest of
the season. The reason for Cochens'
retirement from the game was the an-
nual joint debate, preparation which
required all his time. This has been
postponed, thus permitting the crack
Badger end to devote his time to foot-
ball for the rest of the season.

New York, Nov. 8.—Cornell gave Co-
lumbia an awful football wallop at
Manhattan Field yesterday afternoon.
The score, 29 to 0, hardly tells the story
of how the husky boys from New York
State played horse with the sandy boys
from the City of New York. The fresh
water young gentlemen were down,
battered and ran through the metro-
politan gentlemen.

New York, Nov. 8.—A secret meeting
of a number of National League base-
ball magnates was held in this city last
night. The cause of this conference is
reported to be the action of the New
American association in picking out a
circuit composed of six of the best
league cities.

News From Porter.

Porter, Wis., Nov. 8.—Our fine fall
weather is appreciated by all. A few
tobacco buyers are seen on our streets.
Quite a number of our farmers have fin-
ished husking corn. E. Wikom of
Janesville, was a caller one day last
week. G. Handke gave a dance on
Saturday night. J. Hyland, wife and
daughters of Stoughton, were guests at
J. H. Nichols, on Halloween. About
sixty were in attendance. T. Condon's
horse was raffled at a free dance in Ful-
ton on Friday evening. J. Berry held
the lucky number. George Nichols and
family spent Sunday with relatives in

COMMON COUNCIL
TALK BRICK PAVING

ORDER WORK TO CONTINUE AS
COMMENCED.

City Fathers Admit That Job Has Been
a Poor One as Carried Out Between
the Rails—Engineer Brown Says
That All Will be Well in the
End.

Mayor V. P. Richardson and members
of the common council assembled last
evening in the council chamber at a
special called meeting.

As stated in the Gazette last evening,
the session was called so that the city
fathers might come to some definite
understanding in regard to the brick
paving question on West Milwaukee
street. The trouble at present is with
the brick that is to be placed between
the street car tracks. Either the right
kind of brick is not being used or the
workmen don't understand how to lay
it. Cars when they pass chip the brick
and jar it from place.

At 7:30 o'clock last evening, Mayor
Richardson set the ball in motion by
stating the purpose of the meeting.
Aldermen McLain and Gilkey were
absent.

Mayor Richardson stated that he had
been notified by Contractor John Wat-
son that he was not satisfied with the
brick ordered by the street car com-
pany and that their part of the paving
was not satisfactory to him. Mr. Wat-
son said he did not care to use the
brick unless ordered to do so by the
council.

Alderman Seannett said that as far as
he understood the brick had been placed
wrong side up. Alderman Carpenter,
then called on City Engineer Brown for
his opinion.

Mr. Brown said that the work as far
as done had not been carried out right
and from information that he had gained
in Rockford it was quite evident that
brick paving between street car tracks
was a success when properly carried
out. He thought the trouble was in
setting the brick too near the rails.

Ald. Carpenter moved that the street
assessment committee be directed to
allow the work to proceed by using the
special paving brick now being laid by
the contractor. Adopted.

PARTY LINES MAINTAINED.

George K. Nash, Republican Candidate
for Governor, Elected in Ohio—Fusion-
ists Win in Nebraska—Kentucky Is in
Doubt.

Incomplete returns from Ohio indi-
cate the election of George K. Nash,
the republican nominee for governor.
His plurality is put all the way from
20,000 to 50,000. The most interesting
feature of the election was the loss of
Cuyahoga county, the home of Senator
Mark Hanna, by the republicans.
"Golden Rule" Jones, the man with-
out a party, carried this county, ful-
filling the predictions made two weeks
ago. It would seem that Jones cut
more deeply into the democratic than
the republican vote.

Nebraska was carried by the fusion-
ists. The plurality is placed at 15,000
votes—a decided increase over the vote
of two years ago. This large gain will
be accepted as an indication that Col.
Bryan is stronger than ever in Ne-
braska, for he led the fight in person
and made himself an issue in the cam-
paign.

Although the returns from Ken-
tucky indicate the election of Col. Tay-
lor, the republican nominee for gov-
ernor, the democrats claim that Goebel
is elected. Contrary to expectation,
the election in Kentucky passed off
with little trouble, although the state
militia was under arms ready for in-
stant service. If Taylor has carried
Kentucky it is probable the state legisla-
ture will be republican on a joint
ballot, insuring the return of a re-
publican senator to Washington. The
Brown vote, as was expected, is light,
for the anti-Goebel democrats voted
for Taylor.

Iowa republicans re-elected Gov.
Shaw by an increased plurality, which,
it is estimated, will pass 60,000, but
the republican ticket, as a whole, probab-
ly will reach 70,000 plurality. Gov. Shaw,
apparently, ran behind his ticket. The
returns indicate republican gains in
the legislature. It is estimated that the
republicans will have 120 on the joint
ballot in the next general assembly.
The friends of Senator Gear claim the
returns from the senatorial districts
show conclusively that he will be re-
turned to Washington.

Maryland has gone back to the demo-
cratic column again, the democrats
carrying the state by a plurality vari-
ously estimated at 10,000 to 12,000. The
election in Maryland places ex-Senator
Gorman back in the saddle.

Reports from South Dakota indicate
that the republicans have carried the
state by a plurality variously estimat-
ed at from 5,000 to 10,000. The
state had been carried by the fusionists
by small pluralities since 1896.

In New York and New Jersey the re-
publicans retain control of the legisla-
tures. In Virginia the legislature
elected by the regular democratic party
insured the re-election of United
States Senator Martin.

Massachusetts went republican by a
decreased plurality, owing to the light
vote.

In Pennsylvania a light vote was
polled and the republican plurality was
considerably decreased.

FOR AMERICAN PROTECTORATE.

Cuban Leaders About to Form an In-
dependent Protectionist Party.

Havana, Nov. 8.—The old leaders of
the party in favor of autonomy during
the Spanish regime have decided to
form a new league to be known as the
independent protectionist party. This
organization will include not only the
old autonomists, but Cubans generally
who favor the idea of an American
protectorate. It is thought that Jose
Maria Galvez will be the president of
the new party, the leaders of which
will meet tomorrow to draw up a gen-
eral plan of campaign. The new asso-
ciation will probably be formed dur-
ing the present week, and the Nuevo
Pais will be its mouthpiece. A mani-
festo will be sent to the provinces re-
questing all Cubans to give their sup-
port to the new party. The manifesto
will also advise all Cubans in the provinces
to elect delegates to the national
assembly called to meet in December.

TOBACCO MARKET
CONTINUES ACTIVE

AMERICAN TOBACCO COMPANY
STILL BUYING.

Their Buyers Are Seeking That Cheap
Grade of Goods Which Go Into the
Manufacture of Cigarettes and Cigar-
ettes—Large Dealers Have Sold
But Little to the Trust.

The buying of the 1899 tobacco crop
is going apace in most of the growing
districts. The most active of these are
the agents of the American Tobacco
company, whose riding has been con-
fined to the half-cut sections, gathering
up the cheaper grades for the use of the
cigarette and cigarette trade of the
trust.

While their buyers are numerous and
their canvass a thorough one but few of
the more conservative dealers have been
taken off their feet or drawn into the
movement. Some buying of the better
grades however is being done, though
most of the local dealers are unable to
see prospective profits in paying more
for the new crop than carried leaf of the
'98 crop can now be bought for on the
market, which would be the case were
they to purchase selectively at the
growers' asking price.

The current number of the Wisconsin
Tobacco Reporter gives names of sellers
of about 300 acres of the new crop at
prices ranging from 8 1/2 to 9 cents, cover-
ing all grades of the crop. It also
quotes sales of 300 cases of 1898 to-
bacco from first hands at 8 to 9 cents on
the scale. The shipments out of storage
reach something over 1,000 cases,
twenty-one carloads from Edgerton to
all points for the week past. The ex-
port trade is falling off.

BITS OF FURNITURE.

IDEAS FOR THINGS ODD, ORIGINAL AND PLEASING.

A Fine Cabinet For Books and Photographs, Inexpensively Constructed—A Convenient and Picturesque Window Arrangement.

"Odd bits of furniture, something out of the common run of things seen in the furniture shops—these are the things that many are looking for."

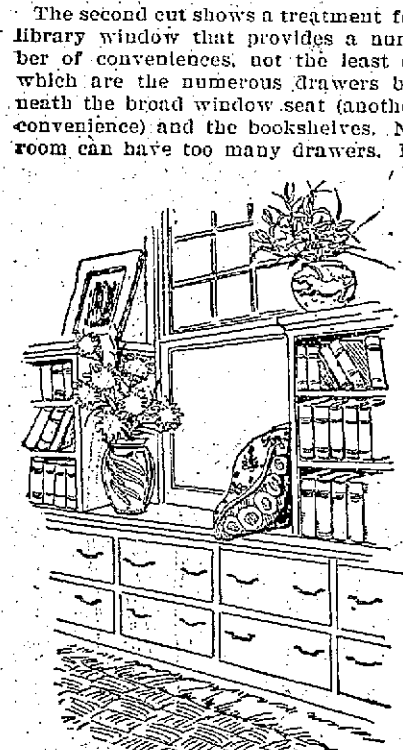

"To be unique, original and pleasing a bit of furniture need not be expensive, though if bought at a dealer's it usually is. If one can put his ideas upon paper, the cabinet maker or the skillful two-dollar-and-a-half-a-day carpenter will translate them into wood very accurately. This opinion The Ladies' World has illustrated as follows:

CABINET FOR THE LIBRARY.

Take, for instance, the design that is shown herewith. Outside of the fluted corners and ends and the center door of heavy glass a carpenter could construct this bit of furnishing in a very short space of time and consequently at small expense. The fluted material can now be bought at lumber yards, machine turned, at trifling cost. If the glass door, with its bulbs of opaque glass, cannot readily be found, substitute a wooden door of some attractive design, but the colored, rough surfaced glass will be exceedingly attractive if it can be obtained where the cabinet is to be constructed. One of the closets may well be used for the storing of mounted photographs or scenery and of great paintings or as a receptacle for the annual picture harvest of the amateur photographer who may be a member of the family, most families having such a member now. Books scattered about in such receptacles as these make a library a much more attractive and homelike place than do the stiff rows of closely filled shelves so often seen.

The second cut shows a treatment for library window that provides a number of conveniences, not the least of which are the numerous drawers beneath the broad window seat (another convenience) and the bookshelves. No room can have too many drawers. In

TREATMENT OF A WINDOW.

the library they are specially useful for folding old magazines and papers, pamphlets, writing paper and envelopes bought in bulk by the pound and the thousand, photographs and scores of other things. Where there are children in the family they will appropriate some of these drawers to their own use and here their playthings can be kept.

Fashion's Latest Maneuvers.

Stitchings, stitchings all the way, and the tailor well to the fore—this about explains the position of affairs in fashion's maneuvers. Cloth gowns of light colors and of a claret and mulberry shade are alike to be patronized, and these are invariably trimmed with many stitchings set very closely together. There are many editions of the tunic skirt to be seen.

Besides the faced cloths, the rougher kinds of tweeds are to be recognized, and dark red cheviot will be among the prime favorites. A gown of this trimmed with spotted panne; a gruffy cloth, with a coat boasting a plastron of stitchings set across, revers of gray panne, and a huge collar of cheviot; a claret colored cloth, with an ermine hood to the coat which displays a small yoke and cravat of pale yellow lace—these are confections that represent the glory and richness of coming styles.

Besides stitching our dresses and our coats, we stitch our hats, a fashion which first made its appearance last autumn. The stitched velvet toque or turban is comfortable, may be made becoming and is therefore likely to succeed.

ROMAN RUINS IN ENGLAND.

Excavations Have Brought to Light a Ruined City.

Through systematic excavation extending over many years the 100 acres inclosed within the walls of the ancient Romano-British city of Silchester have yielded a large crop of objects of great antiquarian value, which form quite an imposing collection in the Reading museum. The division of the areas for exploration each year takes the lines of the ancient streets, as indicated by the difference in the color of the crops which are cultivated on the spot, and already a little over half the site has been dug out, relieved of its treasures and restored to cultivation after the foundations of the ancient buildings have been carefully planned and photographed. The results of last year's explorations are now on exhibition for a few days in the apartments of the Society of Antiquarians at Burlington house. The evidence they afford confirms the view already accepted that the site was occupied by a civil population and not by military. In addition to minor buildings a large, well-planned house of early date, several fine hypocausts and a workshop have been unearthed, as well as a number of wells and pits, one of the latter having a double row of wooden stakes driven into the bottom, probably for the impaling of wild animals. The remains of an earlier house were found beneath the large one, with a rare mosaic pavement sufficiently intact to permit of huge slabs being placed together and placed on exhibition. It was contrary to ancient government that human bones should be interred within the walls of a city, but evidently the modern evader of by-laws and regulations had his prototype in remote days, since in a secret, out-of-the-way corner, some feet below the surface, has been found a jar full of calcined human bones. For the \$2,500 already spent upon them the excavations have given ample results, and it is hoped that the \$15,550 still required by the exploration fund will be forthcoming in order that the work may be satisfactorily completed.—London Telegraph.

CORK SINKS IN THIS FLUID.

Will Not Sustain Lightest Material on Its Surface.

Now that hydrogen has been liquefied, there seem to be no more worlds to conquer in this direction. It was a remarkable coincidence that the first public exhibition of this latest wonder was made in connection with the centenary of the Royal Institution of Great Britain. Professor Dewar, in opening the exhibition, spoke of liquid hydrogen as a new instrument of research, which it eminently is by virtue of the extremely low temperature at which alone it can exist, and which low temperature it, by its presence or contact, enables other substances approximately to reach. The liquid was exhibited in a state of gentle ebullition in a vacuum tube immersed in liquid air, the latter serving to impede the access of heat. The hydrogen is a transparent liquid, and besides being the coldest, is also the lightest liquid known. A cork drops immediately to the bottom of it. At the bottom of the vessel containing the liquid there appeared a whitish substance, which was, in fact, solid air, or air ice. It is impossible to avoid the air ice at the bottom of the vessel, as the air at the surface is, by the intense cold, condensed, liquefied, and subsequently solidified, and, being so much heavier than the hydrogen, it sinks and accumulates at the bottom. To show that the liquid was really hydrogen, a light was applied to a small quantity, which at once burst into brilliant flame. Solids immersed in the liquid long enough to attain the same temperature were, upon being taken out, covered with liquid air, which would run down and drop off.—American Machinist.

Celebrated Her 101st Birthday.

In the old Doty homestead, built before the Revolution, situated on the boundary line between the borough of New Providence and Summit City, N. J., Mrs. Phoebe Doty Hedges recently celebrated her 101st birthday. Mrs. Hedges traces her lineage to Samuel Doty, who came over in the Mayflower. Early in the last century the Doty family settled in New Jersey. Mrs. Hedges' father, James Doty, was a Minute man during the Revolutionary war and also served in one of the New Jersey regiments. He married Nancy Lacey and Mrs. Hedges was born on July 27, 1798. In 1815 she married Edward Hedges, who died in 1874. Several children were born to them, but only one survives. She is Mrs. Jeannette Morris, aged 74, with whom Mrs. Hedges now lives. She is an original daughter of the American Revolution, and in recognition of this the national society last October sent her a gold spoon, suitably engraved with her monogram.

THE PRICE OF WOOL.

The Omaha World Herald, democratic, and the Lincoln Journal, republican, have been having an argument over the prices of wool and lumber, the World Herald having "changed the subject" in its next issue after the Journal published the following:

The Omaha "World-Herald" has suddenly dropped the woes of the Sultan of Sulu and the establishment of slavery in his dominions as the newest issue and fallen back on the tariff on wool. It says that the wicked republicans imposed a tariff on wool and in consequence of this outrageous measure wool has dropped from 15 to 12 cents a pound in a year.

The woes of the Nebraska farmer who used to get 15 cents a pound for unwashed wool last year and now has to take 12 are set forth with an eloquence and pathos that melts the reader to tears.

However, 12 cents a pound is better than 9, which was the price in 1895 under the Wilson-Bryan Gorman tariff of '94. Nine cents a pound was the average price of wool in the United States for the year 1895, the first full year of the democratic tariff. And a fluctuation between 12 and 15 cents that followed the passage of the Dingley act is a vast improvement. Let the "World-Herald" consider the matter from that standpoint and restrain its tears.

The fact that the farmers of Nebraska and other western states all want lumber now, under McKinley prosperity, and want it quick, has certainly raised the price of lumber, and they are buying it just as fast as it can possibly be got from the lumber camps and landed at the stations. But few of 'em were able to buy a thousand feet of lumber under democratic conditions for four long years, though the price had dropped to correspond with wheat and pig silver and other drugs in the democratic market. Don't weep about wool so long as it is 83 per cent higher even during this temporary fall, than it was in the palmy days of "cheap things" and the Wilson-Gorman tariff.

Amiral Crowninshield, of the Navy department, says, in his annual report, that the number of sailors in the navy, including petty officers, at the end of the fiscal year was 14,501. Over 56 per cent of the petty officers were native born, over 32 per cent of the foreign born were naturalized and 88 per cent of the whole number were citizens of the United States, while 65 per cent of the remainder had declared their intention to become citizens.

The special expert sent abroad by the Agricultural Department in search of new seeds and edible plants, says a press dispatch, has brought back an "everlasting strawberry," which it recommends highly. It comes from France, where it has been recently bred. It is said to produce fruit for months on the same plants, and a small patch will supply a family table for a whole season.

A floating paragraph says that "in the twelfth century gloves with separate fingers were first seen." This statement is a lie on the face of it. Gloves without fingers were not gloves at all. It is true that this is a small matter, but while we are getting our history let us get it straight.

MARYLAND GOES DEMOCRATIC

Ex-Senator Arthur Pue Gorman Again in the Saddle

Baltimore, Md., Nov. 8.—Maryland has returned to the democratic column after four years of republican control. Colonel John Walter Smith, representative of the First district in congress and the leader of what is known as the Eastern Shore Democracy, has been elected governor by a large majority, probably 15,000. The result is a signal victory for ex-Senator Gorman.

There is a reasonable certainty that the lower house of the general assembly will be democratic by a large majority and that the democrats will elect enough state senators to overcome the republican advantage among the hold-over senators, thereby controlling both branches of the legislature.

OHIO GIVES NASH 50,000 PLURALITY

[Continued from page 1.]

county is certain. The democratic managers claim a plurality over the republicans by from 4,000 to 5,000. The proposition to issue bonds by the city of Denver for the construction of a municipal water plant carries by a majority of 2,000 in a vote of a little over 5,000.

Close Vote in Salt Lake City

Salt Lake City, Utah, Nov. 8.—Straight ballots and a few complete returns from forty-six precincts with six precincts to hear from, give Thompson, Rep., for mayor, 4,940; Barnes, Dem., 4,775. Thompson's majority, 164.

HANNA ON OHIO VICTORY

A Magnificent Endorsement of President McKinley's Policy

Cleveland, O., Nov. 8.—Senator Hanna made the following statement this morning:

"Under the conditions it has been a splendid republican victory. The returns have come in so slowly, that it is impossible to say just how emphatic

MARK HANNA.

the victory is, but it is a magnificent one. It is too soon to say that I am satisfied with the result for we do not know certainly what the result is. But we know enough to know it is a great victory for the party.

"The result in Cuyahoga county is not different from what was expected, and is due to local conditions which were understood before the election. The result so far as this county is concerned, has no real significance, and while it is not pleasant, it is not a surprise. When the returns are all in it will be possible to analyze the figures and understand all they mean, but until the returns are more complete there is no use saying anything more than that they show a great republican victory."

What Senator Hanna said applies only to Ohio. He refused to discuss the result in the other states, and said only what he did very reluctantly.

MASSACHUSETTS IS IN LINE

Republicans Carry the State By 65,000 and the Legislature.

Boston, Mass., Nov. 8.—The republicans carried Massachusetts by 65,000 votes, electing W. Murry Oran governor. The entire republican state ticket was elected by practically the same plurality as the head of the ticket and the legislature of 1900 will also be republican by the usual large majority, there being few changes in either branch. The total vote for governor with one town missing was as follows: W. Murry Oran, Rep., 168,846; Robert Treat Paine, Jr., Dem., 103,812.

The senate of 1900 will stand practically the same, thirty three republicans and seven democrats, while the house will have about 165 republicans, 58 democrats and the balance divided among the socialists and prohibitionists. While the socialists lost a representative in Flavourhill, their candidate for governor led the democratic nominee in that city and in other parts of the state the socialist doctrine was given some endorsement.

Boston Goes Democratic.

Boston, Mass., Nov. 8.—The democrats had no difficulty in carrying the city of Boston. For the past three years the city has endorsed the republican candidate for governor, but this year Robert Treat Paine, Jr., the democratic nominee, received a plurality of 6,196 over W. Murry Oran, republican. Paine's vote was 32,592 and Oran received 26,366. Last year Wolcott, republican, carried the city by a plurality of 1,897 over Bruce, democrat.

MAYOR JONES IS SATISFIED

He Sees a Victory For His Ideas in Ohio.

Toledo, O., Nov. 8.—Mayor Jones said this morning:

"The result of the election is exceedingly gratifying to me as it must be to every lover of liberty. The vote for the non-partisan idea is large enough to justify the claim that the cause has won the greatest victory ever recorded in the political history of the state.

"I believe the moral force will lead the legislature to pass the municipal code commission bill, which provides that every municipal officer in Ohio shall be elected by the non-partisan plan, doing away entirely with political parties in all our cities. Furthermore, the vote for the non-partisan idea will have its influence in shaping national issues next year. There will be more of morals in the national platforms by reason of it.

"I am thankful that the non-partisan vote in Ohio may be recorded as favoring a christian policy towards the Philipines."

A GLIMPSE AT STYLES.

Many Changes in Skirts, Bodices, Sleeves and Trimmings.

One of the distinguishing features of the new fashions as delineated by the New York Sun is the diversity in the styles of skirts and overdress effects, which no doubt will be warmly welcomed by those who have objected so strenuously to the eelskin variety. However, this style of skirt is conspicuously in evidence among the imported models, in spite of the fact that there are later styles with the correct fullness at the back. This is arranged chiefly in box platts about two inches wide, either one or two, as you fancy.

Another encouraging feature is that the skirts of street gowns have less train than those worn during the summer. They are not short in the sense of clearing the ground, but there is a tendency in the right direction. Some of the tailor made skirts barely touch the floor all around, while the more dressy cloth gowns have two, three or four added inches, as you like. Dressy gowns, and evening gowns in particular, are all provided with the graceful train which is their rightful prerogative, and all skirts are full and flaring at the bottom.

Other salient points of winter modes, according to the authority mentioned, are as follows: The overdress or double skirt effect in various forms and modes of treatment is a leading style made very effective by using two materials or very elaborate decoration.

The new sleeves are very close fitting, with very little fullness at the top, but they claim a goodly share of the trimming all the same. They are tucked, encircled with rims of lace insertion or embroidered according to the kind of material used. The entire sleeve is decorated in very many cases,

CLOTH GOWN IN WEDGWOOD BLUE.

but again the trimming is seen at the top and wrist or set in bands, with plain spaces between. The finish at the wrist is close, with points, scallops or frills of lace falling over the hand.

As for the bodices, it is a varied work of art; with all the fancies of last season supplemented by any number of fresh ones. The special novelty perhaps is the new bolero, made with two box platts in the back and one on either side of the front. It is quite short, showing a wide, draped belt of satin below, which is straight on the lower edge. The neck is cut out round to display a yoke of lace and a fitted collar of velvet about three inches wide.

In detail of finish and decoration the new gowns have blossomed out beyond description. Tucks and machine stitching are well to the front again, and both are applied to almost every kind of material, except lace, and that is sometimes decorated with narrow stitches of colored silk when used for a yoke and hems. The craze for lace has progressed with all the other extravaganzas.

Wedgwood blue is the tint for a cloth gown trimmed with circular bands of white silk edged with roses of blue stitching.

Cloth in light colors and velvet, either plain or closely covered with white pin spots, and a sort of wool material resembling serge, with a little roughness on the surface, are the leading fabrics for winter gowns, with chiffon, lace and elegant brocaded silks for evening wear.

Fashion's Echoes.

"Wider skirts" are the words for the coming season.

The dress plaids in two shades of some rich, soft color are so pretty that they can hardly fail to be popular. Plaid silk linings are used in some of the wool dress skirts.

French flannel petticoats with silk flounces below the knee appeal to the average woman who likes to be warmly clad in cold weather.

Black velvet, starred with jet or steel, with collar, lapels or stole of chinchilla, will furnish the youngest note of fashion.

French dressmakers are cutting tulle plaids into shapes and appliqueing them on plain cloth. This is not perhaps very pretty, but it is very new and very French.

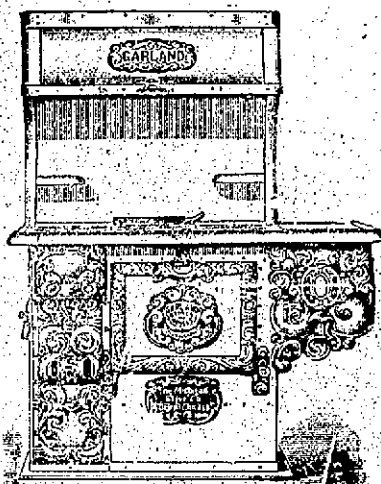

Round handkerchiefs embroidered with your favorite flower are the latest fad.

A string of pearls, a wreath of small green artificial leaves or a wisp of black tulle clasping the base of the small knot of hair represents the very latest Parisian idea in hairdressing.

NOVEMBER TERM OF CIRCUIT COURT

LENGTHY CALENDAR CALLED THIS MORNING

Many Cases Disposed of by Judge B. F. Dunwiddie—John Arquette Appeared in Court—Many Attorneys From Out of the City in Attendance Including Robert La Follette.

With Judge B. F. Dunwiddie in the chair the November term of the circuit court of Rock county opened this morning. At 9:30 o'clock Dr. E. D. Roberts as under sheriff, walked to the court platform and in a clear but trembling voice said: "Hear ye! Hear ye! Hear ye! The circuit court of Rock county is now open. All those having business to transact step forward and they shall be heard."

Business for the November term was then open and the court was a busy bee until the arrival of the noon hour. The number of cases were taken up in their respective order and quickly disposed of.

The criminal calendar was a short one there being but five cases. The most interesting of these cases is that of the state of Wisconsin vs. John Arquette. Mr. Arquette appeared in court accompanied by Deputy Brown.

When the case of the state vs. William Saunders was called Attorney W. G. Wheeler suggested that it might be good policy if the court would drop Mr. Saunders a letter notifying him that his case was on the November calendar. Saunders is the prisoner who made good his escape from the Rock county jail with Jack Hess.

Attorneys this morning, from the surrounding towns were plentiful including Robert La Follette, Madison; Menzies, Beloit; Dunwiddie, Monroe; Page, Whitewater, and Richmond, Evansville.

VESTIBULES MAKE MORE WORK

Motormen are Obligated to Get Off the Cars to Turn the Switch.

Motormen on the newly vestibuled street cars are having additional work these days. The reason for this is that the motormen are required to get out of the car and to the front every time a switch is turned, and take the switch rod to shove over the tongue of iron that guides the car.

Formerly the motorman did this by leaning over the dash. The presence of the windows in front now makes this impossible and the men have a new job.

SUM NEARS ONE THOUSAND

Property Owners in Janesville Evidently Want the Proposed Factory

Local property owners are answering nobly in subscribing to the fifteen hundred dollar fund that is necessary to secure Messrs. Page and Thomas of Chicago, to locate their ladies' garment factory in Janesville. One hundred and fifty dollars was raised this morning. A. P. Lovejoy gave fifty dollars. The subscribed sum is now near the one thousand dollar mark. Chicago interested parties are expected here this evening.

HAS AN AUTOMOBILE PATENT

Frank Randall of This City is Solving the Horseless Carriage Question

Frank Randall of this city, who suffered the loss of his Glen street bicycle factory yesterday as the result of fire, is now working on an automobile patent that he expects will in a short time solve the horseless carriage question. In the fire yesterday he had a number of automobile patents destroyed, but these he expects to soon replace. Mr. Randall says that the time is not far away before he will have a horseless carriage on the streets of Janesville.

SISTERS' FAIR HAS CLOSED

Was Liberally Patronized This Year by Citizens of Janesville

After a most successful run of several days the Sisters' fair closed last evening at the armory. The citizens have given the fair this year their liberal support and the Sisters are grateful for all favors extended. Excellent music pervaded each evening and an excellent program was provided at all times. The articles disposed of were numerous and useful and the Sisters have good reason to feel proud of this year's progress.

PIG HEAD RECIPE.—One of the most profitable parts of the pig is the head, if turned to proper account. Heads from five to seven pounds should always be selected in preference. They may be got at 3 cents per pound, or less. To make them into an excellent cold head or collar boil in a good sized saucepan with sufficient water to thoroughly cover the head. Add a little salt to water, and when well boiled the head will come off the bone easily. Chop it very fine and put hot, add pepper and salt to taste and white the meat into a stiff bowl or shape. Pressing it firmly down with a weight. It will be fit for use the next day. The bones may be returned to the stock (with fat skinned off) may be used for fryings and will serve to make excellent soup.

PAULY COMPANY HERE THIS MONTH

ST. LOUIS BUILDERS NOTIFY THE COMMITTEE.

Say That They Will Have the Steel Cells Placed in the Rock County Bastille During November—Carpenters and Masons Have Finished—Painters at Work.

From the Pauly Jail Building company of St. Louis, a letter has been received by members of the county building committee stating that the steel cells will be in Janesville this month.

When these cells are placed in position the new \$25,000 Rock county bastille will be finished and ready for occupancy.

Masons and carpenters have finished with the exception of cell work which cannot be finished until the steel is placed in position. During the past few days many men have been laboring in every portion of the building so anxious were the contractors to be well advanced before the arrival of winter. Excellent weather of late has been the means of aiding the completion of the structure.

The new jail is a two-story red brick structure, located at the corner of Park and South First streets. The word jail is hardly suitable, for one would never know that the present handsome structure was built to shelter criminals. It is most complete in every detail.

In the sheriff's residence hard wood floors and finishings are in place, and nothing has been neglected that will add to the comfort of the sheriff and his family. The best of mason and carpenter work has been done throughout the residence and jail. Good plumbing has been carried out on all sides. Present indications are that Sheriff Appleby will be able to receive New Years callers in the new bastille.

MRS. SELLECK GETS CHECK FROM CITY

CITY TREASURER FATHERS PAYS OUT \$6,095.54.

Largest Amount Ever Paid One Individual by the City for Damages—And This is All on the Strength of an Injured Ankle—What Next?

City Treasurer James A. Fathers, this morning drew up a check for \$6,095.54 against the City of Janesville, made payable to Mrs. Mary E. Selleck.

In other words, this is the sum that the tax payors of Janesville are obliged to pay for injuries sustained by Mrs. Selleck as the result of an alleged defective walk bordering on the Tallman property on River street, near the corner of Milwaukee street.

Mrs. Selleck injured one of her ankles, and brought suit through the local legal firm of Fethers, Jeffris & Monat.

The case was stubbornly fought in the Rock county circuit court before the late Judge John R. Bennett. Mr. Selleck also brought suit for the loss of his wife's society. He claimed the lost society was worth \$5,000. His case is now pending in the state supreme court.

The Mrs. Selleck check was made payable today by an order that was introduced last evening and adopted by the members of the common council.

The Island of Rum Is Private Property.

The Island of Rum, says London, Truth in a recent issue, is private property, and the owner declines to allow any outsider to set a foot on it. This unpleasant discovery was made the other day by an artist who thought of going there to sketch. There is a line of steamers running regularly to the island, but the firm which owns them omitted to mention, when the artist took his ticket, that no passengers are allowed to land. So, having gone to Rum, and viewed the island from the deck of the steamer, the artist had to go back again. He was subsequently told that if he wished to land he must obtain permission of "the laird," who is an Englishman.

WERE WEDDED THIS MORNING

Brown-Gosselin Nuptials Were Solemnized at St. Mary's Church

At St. Mary's church at 10:30 o'clock this morning Rev. W. A. Goebel pronounced the words that united as husband and wife Benton E. Brown and Miss Frances M. Gosselin. William Smith acted the part of best man and Miss Alta Gosselin was bridesmaid. After the ceremony the happy couple were driven to the home of the bride where a tempting wedding breakfast was in order. Both bride and groom make Janesville their home and are well known and highly respected by all. Both were the recipients of many handsome gifts as well as the extending of hearty congratulations from a host of friends.

DEMISE OF TOMMIE MAIR

Four Year Old Twin Dies From an Attack of Croup

At 1:30 o'clock this morning the death angel brought sorrow into the Prospect avenue home of Mr. and Mrs. James Mair claiming as its victim their four year old son Tommie. The child had been ill but a few days and not till last evening did the anxious parents realize the serious illness of their loved one. Tommie was a bright little fellow and was a twin brother. The bereaved parents have the sympathy of many in their hour of sorrow. Funeral services will be held from the home tomorrow afternoon at 2 o'clock.

HAYES BROTHERS HAVE CONTRACT WORK INSPECTED.

Party of Over One Thousand Left Chicago Yesterday—Local Contractors Have Accomplished a Wonderful Piece of Engineering—Have Done Their Work Well.

Michael and Dennis Hayes of this city, were busily engaged yesterday entertaining guests who inspected their work along the great Illinois drainage canal.

This well known Janesville firm have recently completed several miles of drainage canal and contract work near and south of Chicago. Thousands of laborers have been involved in the work. A fortune has been invested by the local firm in machinery alone. That they have carried out their part of the work in a satisfactory way was the opinion of the inspection committee.

From Chicago yesterday the trustees of the sanitary district took down the drainage channel its largest and last company of sight-seers. The Santa Fe furnished for the purpose two trains of eleven cars each to carry the party, which numbered between 1,000 and 1,200 people. There were really more guests than were invited.

This excursion was intended primarily to affect Federal action during the coming session of Congress. There were invited therefore: Governor Tanner, of Illinois; Governor Scofield of Wisconsin; Governor Mount, of Indiana; Congressman E. D. Crumpacker, E. M. Robinson, J. Overstreet and C. B. Landis of Indiana; Congressman Charles F. Joy and Champ Clark of Missouri; Congressman A. M. Todd of Michigan and twenty Congressmen from Illinois, besides other Illinois state officials, state senators, canal commissioners, canal inspection commissioners, city officials; aldermen, county officials, members of the Illinois River association and a large number of unofficial guests.

AGED HUNTER AFTER DEER

C. C. Fisher Came to Town Yesterday and Secured Hunter's License

Being nearly seventy years of age does not seem to make C. C. Fisher of the town of Center think that he is unable to hunt deer. Yesterday Mr. Fisher drove to Janesville and secured of County Clerk Starr the necessary hunter's license. On the evening train he went to Medford where he will join his son, who is a special deputy game warden. Mr. Fisher carried with him an excellent gun and it is said that in spite of his advanced years he is an expert with the rifle.

COMMENCE DIRECTORY WORK

Thomas D. Osborn of Freeport, Now Has Task in Hand.

After making a careful canvass of the city Thomas D. Osborn of Freeport, has come to the conclusion that Janesville business men want a new city directory. On all sides he has met with encouragement and has already put his men to work in the local field. The last city directory is Janesville was anything but satisfactory and a new and more carefully constructed one will be welcomed.

THREE MARRIAGE LICENSES

Patrick Holloran of This City Among Those Who Have Applied.

County Clerk Starr had the pleasure of issuing three marriage licenses this morning: Patrick J. Holloran of this city made application, the prospective bride being Miss Katherine McAffrey of Janesville. Albert Rodene of Fulton, and Wilhelmina Teebel of Edgerton, also received a permit as did Frank P. Kutze of Brooklyn and Annie Licert of Magnolia.

DEER HUNTERS IN A FATAL QUARREL

FRED PETERSON SHOT DEAD
BY ANDREW M'KEEN.

Murder at Tomahawk—Wisconsin
Members to Western Waterways
Convention—Jail Delivery at Rhine-
lander—Young Child Lost in the
Woods—State News.

Tomahawk, Wis., Nov. 8.—Six miles northwest of this place, Andrew J. McKee Monday night shot Frederick Peterson through the heart, killing him instantly. About two weeks ago they came to Tomahawk to go into camp and do some hunting. They got permission to use an old camp belonging to Swanberg & Miller, about six miles northwest of this city on the Somo river, and there shot several deer.

One of these Peterson brought to town and sold. He returned to the camp about 4 o'clock in the afternoon, where, according to McKee's story, the latter was engaged in preparing supper. Peterson grumbled because the supper was not ready, and McKee says he told him he had been out on the runway all day and only just come in, but would have supper ready soon. Peterson had been drinking and was abusive. A row followed, and McKee says Peterson made for him with an open knife and threatened to cut him open. McKee backed to the door of the camp, followed by Peterson. McKee picked up a rifle near the door, and as Peterson came closer fired, killing him instantly.

McKee gave himself up. A coroner's jury rendered a verdict of death by a gun in the hands of McKee, who was taken to the county seat and placed in jail. Peterson was about thirty-three years old; McKee is about forty years old.

SPOONER SUPPORTS M'KINLEY

No Truth in the Rumor That He is an
Anti-Expansionist

Milwaukee, Wis., Nov. 8.—Senator Spooner and Congressman Jenkins were in the city yesterday. The former, as usual, would not talk politics for the gratification of newspapers that make a business of misrepresenting him. He has never hesitated to say, although his friends have never thought it necessary, that he is as good an American as ever, a supporter of President McKinley, an enemy of the country's enemies, and always ready to show his colors. Congressman Jenkins said: "I am not a candidate for governor and will not be. I believe somebody has mentioned my name in that connection, but I have never considered it seriously, and there is no possibility of my being a candidate."

CHILD LOST IN THE WOODS

Whole Population About Wausau Is Out
In Search.

Wausau, Wis., Nov. 8.—Roy, the 4-year-old son of Mr. and Mrs. H. Gray, who lived near Kelley, wandered away from home Monday forenoon about 10 o'clock and is lost in the woods. He was accompanied by a little puppy which returned alone in the afternoon. The searchers will close down and the crew and farmers to the number of 150 spent all Monday night and yesterday scouring the forests and swamps. The only trace found of the little wanderer was his tracks, a mile and a half from home, leading towards a swamp and it is feared he has perished of exposure and hunger or been devoured by wild animals.

INTERESTING PARIS BEGGARS

"Father Christmas" Has Curious History
—Formerly Rich.

Two interesting beggars were arrested the other day in the streets of Paris, says the London Post. One of them, "Father Christmas" (Pere Noel) is a well-known character of the Halles quarter. Pere Noel is 80 years of age and owes his name to the possession of a flowing white beard reaching to his waist. He was much incensed when accused of being a vagabond, and in language more academic than the commissary of police himself was capable of using he pointed out that the policemen had committed an "abuse of authority." He produced two pence halfpenny, and referred the magistrate to a circular of M. Atthalin, laying down that when a person possesses a sum of money for which he can obtain shelter and food he is not a vagabond. "Father Christmas" scouted the idea that he was a beggar. He gave, he said, lessons in history to workmen in cheap restaurants in exchange for his meals. "Father Christmas" has a curious history himself. He was a justice of the peace in Paris, and he holds university degrees for literature and science. He was formerly very rich, but spent his fortune in leading a fashionable and fast life. After he was ruined he inherited another fortune of \$20,000, which lasted him just ten months. "Father Christmas"—Charles Bataille by his proper name—has been sent to the old age retreat at Nanterre. The second arrest was that of an old woman found begging in the Rue de Dunkerque. At the police station it turned out that she was born on Feb. 23, 1799. Her first husband died in 1837, her second was killed in 1848. For over twenty years she has been unable to do anything, and has existed on charity. "I live at 5 Rue de Chartres," said the old woman, "but you can send me to prison. It is quite indifferent to me where I pass the time I have still to live." The commissary of police sent Mme. Harwell home and promised to see what could be done for her.

PEARLS A DISEASE.

A Sign, Say the Scientists, That the
Oyster Is Unhealthy.

Some hold that fine pearls are the result of a disease in the oyster, and others that they are caused by the shellfish coating intrusive bodies, such as grains of sand, insects, and even small fishes, with nacre, so as to make them agreeable to its soft flesh. According to a paper of M. Leon Dignel, presented to the Academie des Sciences, Paris, recently, there is a distinction between fine pearls and intrusive bodies coated with nacre, which renders both views more or less right. It is true that foreign bodies entering the shell and probably irritating the mollusc are coated with nacre, and sold as pearls, often of peculiar and fanciful shape. They occur between the "mantle" and the shell, but are usually, if not always, attached to the shell by a neck of the pearly matter. These "pearls of nacre," as M. Dignel calls them, have not the fine iridescence of the true "Orient" pearl, but only that of the shell or mother-of-pearl. They are the result of an accidental intrusion. On the other hand, the true spherical pearl of Orient luster is formed in any part of the shellfish except the mantle and has no connection with the shell itself. It is a pathological classification of "stone," and seems to arise from parasites. It begins in a small sac of humor which becomes gelatinous and classifies in a series of concentric layers. A pearl thus formed is composed of crystalline matter and a substance resembling concholine in alternate layers. At its heart is a cavity holding organic matter and calcareous crystals, with remains of organized creatures, presumably the parasites which have provoked the malady in the shellfish. In course of time the sac in which the pearl is made becomes thin, and the mollusc, breaking it easily, can eject the pearl.

Controversy by Figures.

"Let me see," mused the young lady from the Back Bay district, "did not some preacher say once upon a time that nades was located immediately under Chicago?"

"I believe so," replied the young man from the stock yards, "but you bet your life he would never have risked his reputation as a guesser if he had known that Chicago uses 41,000,000 pounds of soap every year."

Streator, Ill., Nov. 8.—Deputy United States Marshal Tripp of Peoria and a posse of Streator citizens Tuesday morning captured three safe-blowers and postoffice robbers in Streator. The captives were taken into custody for breaking into the postoffice at Chillicothe with the intent of robbing it.

A New Industry for Hawkeville.

The editor of the Hawkeville, Ky., Plaindealer records the inauguration of a new industry in his ballywick. He says that soft shell turtles which heretofore have been considered nuisances and altogether unpalatable in that neck of woods, are now caught by the thousands by the local fishermen and shipped to Louisville where they bring four and one-half cents a pound. "If the demand keeps up this will be a thriving industry, as they increase faster than fleas, and a young turtle becomes a grandmother at the ripe old age of six months."

OPEN DOOR TALK STIRS UP GERMANY

BERLIN PAPERS DISCUSS RUMORED AMERICAN PLANS.

Report That Dewey is to Command Fleet in the Orient Considered Merely a Story Circulated for Political Effect—Conflicting Stories of Samoan Settlement.

Berlin, Nov. 8.—The papers here print the London Morning Post's Washington cable saying that the United States government contemplates taking steps for strengthening its position in the East and will probably send a fleet under Admiral Dewey into Chinese waters.

The Vossische Zeitung says that this sounds extremely decisive; in fact, more decisive than the attitude of the European powers toward the American demands justifies, and supposes that the announcement is made to influence the elections.

Open-Door Question 'Untimely.'

The Neueste Nachrichten says that opening the question of an open door in China is just now untimely, since Germany has already declared Ciao Chou to be a free port, and that Russia did the same at Taiten-Wan. This paper thinks the measure is dictated by a desire to soothe public discontent over the Philippine situation.

Reported Samoan Settlement

It is reported on good authority that the Samoan question has been settled as far as the principal plan is concerned. Germany is to receive the chief part of the islands, and the formal conclusion of the negotiations is expected to be in the immediate future. German colonial circles have spread the report that Germany will give England valuable compensation, but another excellent authority denies that the government even thinks of parting with any of its colonial possessions in order to buy off England in Samoa. The reported plan of settlement gives the United States Tutuila Island. The semi-official telegraph bureau, however, denies that any settlement has been reached.

Czar's Visit to Potsdam

The Czar of Russia arrived at Potsdam today at 10 in the morning and will remain until 10 this evening. He occupied the so-called red chambers in the Kaiser's palace and will not come to Berlin.

Emperor William of Germany appears to have added gallantry to his many other accomplishments. When he recently heard the beautiful Danish virtuoso, Frieda Scatta, play, he said to her: "When I listened with my eyes closed, I thought I heard Sarasate yet I prefer to keep my eyes open."

A Naval Solomon.

Captain McB. a 'canny Scot' was once in command of a troop ship returning from India. On board he had as passengers three ladies, all wives of officers in her majesty's service.

Now it fell out that the cabin allotted to them was fitted up to accommodate four, and consequently it contained four wash basins, one of which was far larger than the other three.

For the right to use this especial basin each lady put forth her claim, citing her husband's position in the army. But the husbands, unfortunately, all proved to be of equal rank, so to clinch the matter the trio bearded the captain in his cabin.

"We will leave it entirely to you, captain," they said, "and abide by your decision."

Captain McB. cogitated duly and then declared solemnly, with the faintest twinkle in his gray eyes:

"Ladies, as it is no matter of rank, I think it will be that the oldest among ye shall have the biggest bowl."

With murmured thanks they filed out again, but that basin was never used during the voyage.
